LAND ADJUSTMENT MAPS

-  Retention Zones — areas where BLM intends primarily to retain or enhance the existing public land holdings. Public lands in most of these zones amount to sizeable acreages, most are in reasonably consolidated holdings or contain resource values appropriate for public ownership. Individual tracts in retention zones may be exchanged when significant management efficiency or a greater public value would be acquired.
-  Other Lands — these lands are open to consideration on their individual merits for retention, exchange, transfer or sale. In general, the lands are in small tracts, widely scattered and often without legal or physical access.

Due to scale of map, parcels of BLM lands containing 10 acres or less may not be shown.

This is a graphic representation only. For detailed information, contact the BLM Resource Area Office in Missoula, Montana.
